Absolutely she will. In fact, we're probably going to do a conference call with her and the members of the small business committee next week.

Kurt,

Thank you for considering me for the "small business advisory committee". I am interested and before I commit can you tell me if the Governor will make time to hear from us and if not who from her office we will be working with once reelected?

I ask because aside from raising money and PR I would like to be involved in improving the landscape of small business in South Carolina.

Thanks and I look forward to hearing back.

Thomas,

Thanks for talking with me today. Like I said over the phone, we're looking for small business people that would be interested in supporting Governor Haley and serving on what would be along the lines of a "small business advisory committee."

We'd want to release the names the press/public, but we'd also want these people to serve something of an advisory role to us and the governor. She's already established a task force to examine the laws and regulations that govern business in SC (you can read more about that here: <http://scommerce.com/your-small-business-advocate>) and we hope to have a comprehensive review back to us this fall in time to propose a legislative package for the 2014 legislative session.

Let me know if this is ok and I'll add your name to the list.
