Hi. We went to Sadlers Creek SP today & it's been totally decimated by logging! What in the world is going on? All those poor deer, possum, foxes & everything else we loved seeing there, all gone. It looks like a nuclear bomb exploded! What is the rationale for this?

Thank you for your inquiry in regards to Sadlers Creek. We lease the park from the Corps of Engineers so unfortunately we do not make the decisions in regards to timber management. Park staff does hope to start cleanup in May and to replant over the winter.

Thx for the response. It's just soooooo sad to see their total disregard for nature.
