To: Heather R. Gahm of the Beaufort Co. Probate Court
& Orders I may send Copies to.

Again I am expressing my opinion and facts regarding your wrongful decision in hopes that you will reverse your decision about my wife of now 63 years. I can not blame you for initially believing Erin's lies & false allegations but I do blame you for not having an investigation of such as to the validity of her sworn perjurous statement before your ruling as you made. Also I was not allowed any rebuttal which I believe is my Constitutional Right as a result my wife was confined to an assisted living home (Helen's Home) for approx 7 months until the so-called Aug 2013 hearing in which you let the lawyers work out a decision which you signed off on. Again I was not allowed any say in those 2 days. After my wife continued confinement the Court appointed lawyer had my wife transported to Columbia S.C. for further evaluation & the "doctors" there said she should come home & she did. That must have been a major disappointment to you ego. While my wife was hospitalised for a long standing intestinal problem Erin came from Florida & took my wife there which again was in violation of the Court order that you signed off on. You also did nothing about this for approx.

eleven months. Why? you finally did have
Eira bring her mother back to breakfast but
again in an assisted living home. I am grateful
for that but my wife is still confined instead
of coming home. As it is we have been separated
for over 2 years & counting with no end in sight.
Unless you reverse your decision we may have to
live our lives out this way as I will not cringe
& beg when my wife & I have been denied what I
believe is due process & a fair hearing. This is
why I call our situation "The Taking of Two Lands"
& many broken trusts. The Port Royal Police supervisors
"shelved" my complaints which I believe is
absolutely wrong & the S.C. State authorities have
rolled around you to "protect" their own. I
don't have any respect or trust for such actions
& my own paid attorney double crossed me.
What a corrupt situation we have in A.P.
Let us see if you have any fairness as you
should ~~have~~ have as a Judge.
