Dear Mrs. Haley,

I voted for you. We need you to defend South Carolina against Obama's refugee resettlement. I am married to a legal immigrant and my mother in-law who is also a legal immigrant lives with us.

The latest United States Senate hearing determined that there is no way to determine if these mostly men of military age are radical Islamist or not. Their government records from countries at war are not available. The refugees will impose cost on the Counties and local governments and give us a crime wave.

Say no to Obama loudly so we can all hear you.

Very Truly Yours,

*Weldon Clark*
