Subject: HealthLink211—Tech Solution For AHC Data and Reporting Requirements

Hello Tony,

[HealthLink211](#) is flexible enough to meet the technology requirements of the [Accountable Health Communities](#) awards even as it supports the different workflows, agencies, departments, and existing technology platforms that characterize these partnerships. It builds on the resources you already use; it simply talks the language and workflows of healthcare.

HealthLink211 is available at no additional cost to all VisionLink client-partners using CommunityOS², our newest operating platform.

Invite your AHC colleagues to see how HealthLink211 supports partnerships and healthcare's triple aim.

[Register here](#) for the webinar on Monday, March 28, at 11:30am, MST.

Better Together,

Dr. W Douglas Zimmerman
