**Subject:** RE: Star2Star VoIP Solution

Good Afternoon Marsha,

I'm wondering if you can help me with a problem I'm having. A little background information first. Bill and Frank Rogers met with Jimmy Early a little over a year ago, June I think, discussing Star2Star VoIP technology and how it can help the state save money while enhancing communication services. Jimmy Early had told Bill that as we get nearer to the state contract renewal date that he would host a meeting with us to talk more detail about the services the Star2Star platform provides. We wanted to have this meeting to make the state aware of the enhanced features and patent pending technology regarding the Star2Star VoIP application.

I reached out to Ruth Kirkland this morning to see if we could get that meeting scheduled. Her reply was "We have entered the procurement process and I cannot communicate with any vendor regarding the impending release of the procurement documents."

I asked if it would be ok to have this discussion with Kyle Herron or Keith Osman. Her response was that would be inappropriate.

We feel that the Star2Star technology could be very important to the state RFP. We have waited just over a year for this meeting and would hate for the state to miss this opportunity with cutting edge latest and greatest technology.

Is there anything you can do to assist with getting this meeting scheduled?

Thanks in advanced

Mike Billings

Good morning Marsha,

I just found out the Jimmy is no longer working with the state. I was wondering who his replacement might be. I have a few new Star2Star feature brochures I'd like to forward to you guys. Could you point me to the right person that I should be sending this content to. I know you guys won't be making a decision or anything like that for awhile, just passing along the content that we feel the state could benefit from. Looking forward to your reply.

Thanks

Good morning Mr. Earley

My name is Mike Billings, I work for a company in Greenville SC called Teleco, Inc. I wanted to introduce myself to you as your direct contact with Teleco. I believe you had a meeting with Bill and Frank Rogers a few months ago regarding the Star2Star VoIP solution that we would like to show to the state. Bill explained to me that your current contract will not expire until after 2014. Bill has appointed me to work with you regarding any questions you may have and to provide you with product content and new information about the product as we get nearer to the contract end date. If you don't mind, I'll be sending you some product information and release news as new features and network enhancement are added to the platform. If you have any questions about Teleco, Star2Star please don't hesitate to call or email. I look forward to working with you and the state in providing the best VoIP solution available today.

Thanks
