Hi Katherine – I was wondering if we could get a copy of the Heritage video to use in conjunction with a video that Governor Haley made for India. This video will be shown to a group of manufacturing companies in India. Please let me know if this is a possibility.

Thanks,
Debbie Moise

Good morning pretty ladies!

One of the chambers in India has told us that if we want to play a South Carolina video in the beginning of their event (w/ 100-150 mfg companies!!) in 2 weeks, we can. I was thinking that we could play the awesome heritage video – would there be any way that we could combine the clip of governor haley from the india website and put that at the end of the manufacturing video, since it's specifically tailored to india? Would that be difficult to splice together? they would need it by the end of next week.

Thank you!
