FYI. As you can see, SCSU's Chair is still trying to control the Governor/B&CB/Legislative Plan. Wish the Chair could accept the fact that SCSU is a state agency and not independent of state elected officials having a say in SCSU's present and future. Evidently the only persons who are on his list of awful controllers of SCSU are state officials, because he failed to mention the Commission on Higher Education, SACS, NCATE, SC Finance manual, state procurement laws and regulations, all the requirements of Federal Title Programs such as Title IV, NCAA rules and regulations, and on and on! And he continues to fail to understand that the people of SC have a voice in a debt of over \$14 million for which the past administrations consistently provided misleading information to the B&CB, House Ways & Means, and Senate Finance Committee. For him, that's in the past and he wants to move ahead with what HE wants - as if nothing happened.

And so it goes
