The American Debt Bomb

by Preston James, PhD.

The Most Powerful Weapon Ever Devised & Deployed, the American Debt Bomb

Potentially more powerful than any nuclear device that exists.

So volatile, it could perhaps be ignited by even a small unexpected spark.

Once ignited it could take much of the World back to the Stone Age, into a new Feudal Age, accompanied by a catastrophic reduction in the World's population, perhaps up to 90%.

Could this American Debt Bomb be purposely set off at anytime chosen by those who created it in the first place, or is it like a freight train running out of control that will destruct on its own?

Could such a detonation be used to attain their very evil, age old Agenda to radically depopulate the Earth of humans awhile setting up a whole new electronic monetary system which would provide control over every surviving human, control beyond imagination?

And if this American Debt Bomb is detonated will a new major World Personality rise to the occasion and provide a new Electronic Cashless Monetary and Banking System as a worldwide solution to this world wide

catastrophe? And would this new Electronic Cashless Monetary and Banking System be their covert creation, that is, the very same international criminals that created the American Debt Bomb in the first place?

And would there be draconian requirements if anyone was to be allowed to participate in this new Electronic Cashless Monetary and banking System? Would folks be required to pay homage and take an oath to a new world ruler that is evil beyond imagination, a man put in place by the very same international criminals that created the American debt bomb in the first place?

What is the Agenda of those City of London Top Policy-Makers that created this worldwide American Debt-Bomb?

Is it an Agenda of mass-death, a basic hatred of humanity and all human accomplishments, a desire to eradicate all human moral character and everything good in society?

What is the American Debt Bomb? How many nations have become aware of the American Debt Bomb and the threat it poses to their very existence if it is detonated?

Can this American Debt Bomb be stopped? If so how? What are Russia and China doing to neutralize the effects of this American Debt Bomb if it is ever detonated? Is their creation of the BRICS Development Bank going to be adequate?

How many other nations of the World are attempting to decouple from the US Petro Dollar? And what happens if "Free Energy" aka "Cosmic Wind" Powered Electric Production which is already operational, is made available to individual consumers, thus eliminating electrical grids and dependence on Crude Oil?

The means to create a huge international American Debt Bomb was shoved into place using the Bretton Woods Agreement of 1945 followed later by creation and use of the American Petro Dollar.

It certainly appears that the US Petro Dollar is little more than very crafty, deceptive, state-sanctioned system of counterfeiting by a foreign Central Banking Family that hijacked the American Monetary Production and Distribution System in 1913. This occurred when the Rothschilds created and franchised the Federal Reserve System, after it was illegally and Unconstitutionally passed by a corrupt Congress and Administration.

The US Petro Dollar was set up as a very crafty secret weapon of the Rothschild Banking Empire for capturing the whole world, including the United States of America, in a huge Web-of-Debt which they could ignite at any time they wanted, or could simply threaten to do so to get anything they wanted.

In order to capture the whole world in a Web-of-Debt it was necessary to free money up from any constraints

such as required backing by Gold, Silver, precious metals or other commodities. Once this was done in 1971, it was then possible to Manufacture and Distribute as much of this imaginary phony FIAT money as necessary to engulf the whole world in a Web-of-Debt.

And as many now realize this is exactly what was done by US Treasury Secretary Henry Paulson which he told Congress that if they didn't provide an immediate huge 900 Billion Dollar Bank Bailout, "there will be Martial Law in the Streets tomorrow".

The US Petro Dollar, a covert weapon of War for the Rothschild Banksters?

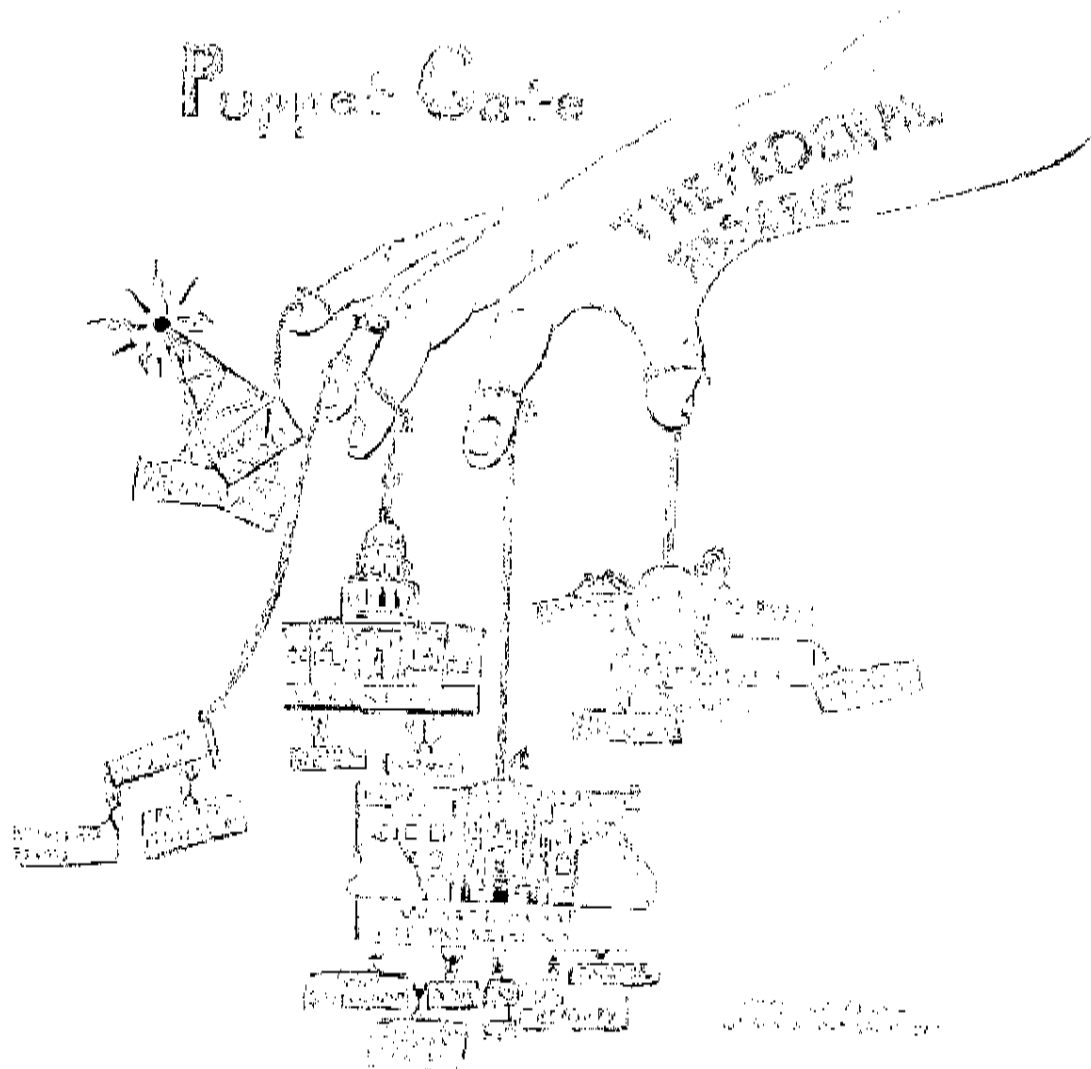

The US Petro Dollar has been a covert weapon of war with which a major economic war has been waged against the whole world. It's purpose has been to access and hijack the national, natural resources and wealth of nation-states and install their own puppet dictators there to assist them.

The US Petro Dollar was shoved into place by President Nixon at the direction of Helnz Kissinger who many believe has been representing the Rothschild's from the get go even when he served as the Soviet Mole "Bor" at the Rothschild's bequest. At the same time the US Dollar was taken off of the Gold standard and was then backed only by the faith and credit of the American People.

Veterans Today Columnist Dean Henderson has done some of the very best research and writing on the connection between Big Oil, the US Petro Dollar and the Rothschild Bankers. He has shown conclusively that Big Oil has been used in numerous major geopolitical manipulations and for transferring immense wealth from consumers to those who own and control the Major International Oil Companies.

The American Financial System has been "Kited" to the point where it has become an international Debt Bomb, more powerful than any nuclear weapon.

The American Debt Bomb is the ultimate weapon of war. As many now realize the American Financial System has been "Kited" to the point where there could never be enough "faith and credit" of the American people to ever adequately back it. Essentially the whole world has become engulfed in a sea of US Federal Reserve System counterfeit "funny money". And the main mechanism by which this occurred was the massive offshore crude oil purchases with US Dollars supplied by American Gasoline and oil consumers.

What is the American Debt Bomb?

Economic experts claim that it is comprised of many Trillions of Dollars of Derivatives which despite what is claimed have little equity backing them, perhaps making them worthless. Many of these have been based on very irregular MERS "recorded" home mortgages that have been repackaged and resold. Some have been linked to the largest Bank Fraud in history with imaginary double loans, fake mortgage insurance and double dipping or triple dipping recoveries by crooked banks. So far no banker has been charged with a crime which should have happened long ago.

Another part of this worldwide American Debt Bomb is the huge stockpiles of Federal Reserve Notes (AKA US Petro Dollars) being held by foreign governments such as China. Rather than dumping these on the open financial markets which would instantly destroy their value, the Chinese are buying up US assets and goods all over America.

The spread of US Petro Dollars has resulted in a massive shift of wealth to the Mideast Nations and

this wealth has been capitalized on by the World's large weapons manufacturers.

These massive oil purchases provided huge quantities of US Petro Dollars with which the oil producing nations could spend to buy American and European goods, especially weapons systems made in America and numerous other nations. This has resulted in Mideast Nations becoming heavily militarized. And of course the big secret is that the Bush faction of the CIA joint ventured with the Saudis and were able to access a great deal of these US Petro Dollars for their own covert uses.

It is well known among senior Intel Officials that this type of strategic partnership between Big Oil and the Bush Crime Cabal (BCC) allowed the BCC to accrue enough power to override Congress and allow the BCC to even pick Presidents and Supreme Court & Federal Court Judges, while completely hijacking and controlling the Republican Party, which they do even to this very day. And a number of covert researchers believe that the Republican Party was completely hijacked by the secret CIA which is controlled by the Bush Crime Cabal in cooperation with the International Zionist Crime Syndicate making the Republican Party itself a RICO crime Syndicate.

The Bankster's Agenda, major recurrent Wars with Mass Death?

These large military buildups of course could be used to destabilize the Mideast and set the stage for numerous Mideast wars which have been easily be set off by manipulating borders, running destabilization programs internally, and provoking and agitating basic tribal differences leading to major tribal wars. This process has kept the weapon systems being bought and the death rates up, which is what appears to be a central part of the Bankster's Agenda for the World. It is a lot easier to "steal people blind" if you keep them distracted by war and major tribal conflicts.

Worldwide Rothschild
Occult powered Banking
System

So there is substantial reason to believe that the Rothschild Banksters who operate out of the City of London Financial District have a specific Agenda to engulf the whole world in their Web-of-Debt using the US Petro Dollar. And that an important part of their Agenda is to engulf the World in a series of perpetual Wars accompanied by mass-death, particularly painful death.

All Wars are Bankster's Wars.

Their Agenda is all about Power and death, that is ministering death to the masses to get maximum power and control over those that remain alive. yes, the Rothschild Banksters and their partners have been reported to be a Luciferian Death Cult committed to preserving the human race by drastically depopulating it aka "Thinning the herd" and promoting survival of the fittest.

Secrecy is paramount for this Occult Bankster Network to stay in power. Complete public exposure will eventually end their reign of power through their ministering of mass death. That is why they have spent many Billions getting control over all Major Mass Media inside America from where they operate their worldwide debt machine by way of their Federal Reserve System which is neither a bank or a reserve.

Russia is well aware that without secrecy these City of London Banksters cannot continue to operate as they have. That is why Russia has put so much money into very accurate, unbiased reporting and Television and has established news services that the whole World is beginning to respect. And the same goes for the leaders of Iran who have encouraged positive relationships with western academics who want peace and now have some news services that are doing a very good job.

Truth resonates and this is why truthful Internet Web sites are rising in popularity and the Controlled Major Mass Media (CMMM) in America are dropping in popularity. The alternative media provided by the worldwide Internet, the new Gutenberg Press, has outpaced the CMMM in every way.

It is obvious that the CMMM is losing viewers and listeners by the day, with few folks under 30 ever even turning on a TV set anymore or listening to broadcast radio for anything other than music. Most use the Internet and shop around for sites they like for news. Truth tends to resonate and take on a life of its own and over time, the Internet has displaced the CMMM and will continue to do so.

The Banksters and their Cutouts realize this and have financed and set up massive numbers of disinformation sites on the Web in an attempt to neutralize Web dispensed truth. So far these efforts are failing miserably because Truth resonates and lies smell. Just last week Direct TV dumped CNN due to lack of viewer response. This is what is in store for all of the rest of the CMMM fake news outlets.

How effective has the American Debt Bomb become?

The American Debt Bomb has been very effective. If you doubt that it has had far reaching effects on American life, just ask yourself how fast have food and gasoline prices been rising the last few years? Or can a depositor in an American banks make enough interest to cover the losses of purchasing power that this inflation in prices causes? Can any normal citizen make any money off of any saving accounts? Many Americans were being severely bit by it already in 2008 and the American economy has not recovered. How can it ever recover when it is still be parasitized by the Federal Reserve System, the main root cause of all American social and economic problems and little more than a huge RICO crime syndicate.

Given the incredibly huge deficit and the reality of the American Debt Bomb what is the likelihood that the USG will be able to keep paying social security and USG pensions of all types? What is the likelihood any pension funds will continue to be solvent?

Not only has the American Debt Bomb been devastating to Americans even without it impending detonation, it has been devastating to many other nations too. It is a fair conclusion that the reason the United States of America our Republic is failing is because of the Rothschild Banksters, their Federal Reserve System, the PuppetMasters (aka the Ruling Crime Cabal) who work for them and their overall parasitical effects on the American economy and American Society.

These Ruling Crime Cabal (RCC) entities which has parasitized America through the Federal Reserve System

11/11/2014

are nothing less than International War Criminals, merchants of death who continually commit crimes against humanity. They must be stopped cold if the United States of America our Great Republic is to be salvaged.

How can this parasitical mass-murdering monster stopped cold and their American Debt Bomb be defused?

When a nation is failing like the USA is at present, the normal thing would be for its leaders, in this case Members of Congress, to meet and openly discuss the actual root causes and what solutions could work. This cannot be done because over 95% of all Members of Congress have been bought and paid for, blackmailed, or human compromised one way or the other. Many have been financially compromised by illegal foreign espionage fronts for the Rothschilds such as by AIPAC and the like.

If any Member of Congress was to speak out truthfully like Congressman Jim Traficant, they would be severely sanctioned and then murdered if they kept telling the truth. If they openly blocked a staged war effort they would be murdered like Senator Paul Wellstone was at the behest of Dick Chicanery.

If they were mild mannered about it they would be sidetracked like Representative Ron Paul was. They would only be safe if they all told the truth together as a unit and called upon the US President, the Congressional Police, the US Marshals, and the US Military and the Provost Marshals to protect them.

As lone truth tellers, they would be picked off one at a time as they have been in the past. As all Members of Congress find out you must "take the silver or take the lead". That is accept the very liberal bribes which will continue perpetually, or you will have to take a bullet".

These members of Congress have not only violated their Oaths of Office, an Oath to preserve and protect the US Constitution and the Republic, but have become part of a massive RICO crime syndicate that characterizes what the USG has become.

Complete truth broadcast to the masses is the absolute anti-dote to endemic USG corruption. When the masses become informed of the absolute incredulous evil and abuse the USG and its PuppetMasters are inflicting on them, this mass knowledge increases the "moral density" of the populace until it goes critical.

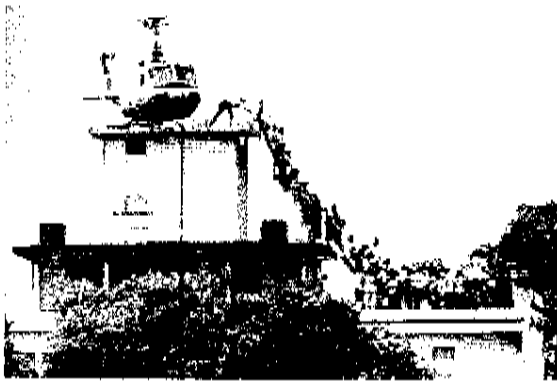

Yes, when We The People learn what is actually occurring, and how grotesquely evil it is, they will no longer be able to tolerate it any longer. We The People will then rise up in numerous unfathomable ways and will work on

every single front to take them down and eliminate their power.

Americans must follow the examples shown by RT, Press TV, and other news services that are working hard to present the news as it really is not as a Ruling Crime Cabal (RCC) propaganda operation for the Rothschild Banksters like the CMMM does in America.

The Federal Reserve System must be recognized for what it is, a part of a large criminal Banking Cartel run out of the City of London by the Rothschild World Zionist Banksters.

It must be identified as the Root Cause of all the current economic and social problems inside America and much of the World.

It must be viewed as a large RICO crime syndicate, a monstrous parasite that is responsible for all the millions of deaths and maimings of wonderful American Soldiers sent into their staged, engineered wars for profits like WWI, WWII, Korea, Vietnam, and all the Mideast Wars for Israel and the WZs.

Nearly the whole World has figured this out and is now turning against America and the regimes it has supported like Israel. If Americans and their elected officials do not wake up, the whole world will eventually declare a covert war on America and make sure one way or another that America become irrelevant and isolated. Unless this course of events is quickly reversed America is going to become a radically depopulated Thlrld World nation of the likes of Mexico.

At some point the US Military High Command has a Constitutional Duty to Intercede and free America from this parasitical occupation by a foreign based Banking Power and their PuppetMasters and Cutouts.

Things may soon get so chaotic and unwound in America that the US Military may step in in and exercise it Constitutional Right to take over if there is reasonable cause to assume that the USG American Command and Control (aka Congress) has been decapitated from control, that is if they have iron clad Intel that Congress has been completely compromised by a foreign power. Which actually is what has happened because the the Rothschild's main action-agent, Israel has hijacked the US Congress through AIPAC and also hijacked the whole Republican Party through the Bush Crime Cabal.

When the US Military High Command fully realizes this and has collected sufficient evidence, we may see some sanity and honesty restored to the USG. This could be followed by large arrests of agents of foreign espionage inside America along with massive RICO arrests related to the Criminal Federal Reserve System and their PuppetMasters and Cutouts.
