Violence Threat Assessment – Planning and Response

April 24 from 1pm - 2pm (CST)

Knowing how to respond to a threat is a tremendous challenge. After a violent incident, it is not uncommon to find that many different people were aware of clues that an attack was being planned. Yet, without the proper mechanism to gather information and assess the situation, prevention is nearly impossible. This webinar provides a communication and decision-making model to help businesses, schools, organizations and communities become proactive in their management of threats. Strategies to help you identify, assess, and manage individuals who make threats will be explored.

Critical Incident Group Debriefing

June 17 from 1pm - 2pm (CST)

Critical Incident Group Debriefing (CIGD) is a short-term group intervention process that focuses on an immediate crisis. CIGD is one method that can be utilized to lessen the likelihood of participants experiencing symptoms of trauma and stress after a critical incident. This group debriefing process provides a place for participants to talk and share experiences, and for the facilitator to teach and provide information about the impact of critical incidents. Participants of this webinar will not only learn about facilitating a group debriefing, but also have a better understanding of when a group debriefing might not be appropriate.
