Subject: RE: Volunteers & Staff meals

Sandra,

The Lt. Governor is very much aware of the meal situation. He also knows there are 950,000 seniors in SC who qualify for our program. At best we can serve 30,000. This means we cannot serve every senior who qualifies. As a part of the State Plan submitted and approved by Washington, we must target seniors based on race, poverty, rural, and non-English speaking. This is why there must be a full assessment to rank the waiting list based on need.

Again, thanks for your thoughts.

Tony

Subject: Volunteers & Staff meals

Tony:
FYI:
My son is an Attorney and I know Lt. Governor Glenn McConnell is also an Attorney I wonder what their take would be on not giving elderly employees who qualify according to the Older Americans Act a meal.
This also applies to our volunteers who qualify for a meal. We have Volunteers who are Senior Center members and volunteers who help in the kitchen who are all over 60 that we were able to feed in the past.
Volunteers are our lifeblood with such a Skelton crew we cannot function without them and if we can't feed them we will lose them
