South Carolina State Parks

at 18:48:47 on 7/08/2019 UTC · 🌐

Last week volunteer Ashby, volunteer Nona (not pictured) & intern Cadey marked 14 new sea turtle nests in one day breaking the daily nest record at Edisto Beach State Park. The park is now at 286 nests and counting! What a record year! Not only did they mark the nests, they also collected 14 dna samples to be sent off for research at the University of Georgia. All in a days work! www.southcarolinaparks.com/Edisto-beach

Darlene Mike White Awesome!
