WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Enel and Greenpeace plot a renewables course: Enel already has impressive credentials as an energy industry pioneer and innovator. Now the Italian utility plans to take it a big step further by investing billions in renewables and smart-grid-related initiatives. In doing so it has what may seem an unlikely new partner in Greenpeace. [MORE >>](#)

How smart tech improves public health: A competition backed by 25 cities and public agencies offers awards to developers for tackling tough health challenges. A new app takes telemedicine into the urgent care realm. BehaviorMatrix shows how emotional analytics can improve patient outcomes. See these stories and more at the site. [MORE >>](#)

Bike lanes to nowhere? Pulling from open data, a Washington Post blog details D.C.'s disjointed and incomplete bike network -- a problem many cities face. But there is good news on that front; some recent initiatives encourage more and better cycling options. [MORE >>](#)

Webinar: Future urban systems and smart integrated architecture

Meeting of the Minds, together with Council member Black & Veatch, will host a live webinar on the topic of smart integrated infrastructure on Tuesday, April 7, at 10 a.m. PDT. Learn about a new approach B&V is pioneering that allows utilities and infrastructure owners to drive new efficiencies in resource consumption as data helps manage energy, water and bandwidth use.

PILOTS & PROJECTS

School district gets 'A' for energy efficiency: Schneider Electric is taking its experience in energy management and automation to an Alabama school district to provide an extensive renovation that will ultimately result in a better environment for students and save the district a lot of money in energy costs -- \$11.7 million over 20 years. Get the details. [MORE >>](#)

Invisible network makes water visible: Water is a scarce resource in many cities and detailed tracking is vital to conserving it. Learn how Santa Fe, New Mexico is using a nearly invisible network from Badger Meter to make its water supply more visible -- and how the technology could work in your city too. [MORE >>](#)

Wanted: Experienced conference manager for major D.C. event

The Smart Cities Council seeks an experienced conference manager to provide day-to-day responsibility for the success of a September 2015 conference in Washington, D.C. The conference, the first of its kind in the United States, will include a trade exposition. [Learn more here >>](#)
