Dear Honorable Governor Haley and Mr. Soura

I've never written an anonymous letter. I hope you take this letter serious. I work in a Medicaid eligibility office. Things are very bad. The computer system is a nightmare. I don't believe you know how bad it is. We get instructions from everyone. There is no structure. This is stressful. Mr. Supra and Michael Jones messed up South Carolina Medicaid. Michael Jones is still doing the same things. He is vindictive. He should be investigated for his sexual relationships with women on the job and how he discriminates against black employees. I hope you look at South Carolina Medicaid more closely.

Thank you.
