Subject: Granicus Webinar: Legislative Management Software Success Stories

Hi Tony,

Overhauling the way legislation and agenda items are approved for public meetings can have an incredible impact on workflow and staff efficiency, no matter the size of the organization. Big and small, government organizations are turning to software to help manage their agenda management process. Our free webinar will dive into that process.

We will be joined by LaTonda Simmons, the City Clerk from Oakland, CA, who will share her success story from turning their complicated agenda process into a simple task. See first-hand that you're never too big to change!
