Subject: Today--USC Beaufort funding background

Katherine,

Iâ€™ll be in Columbia this afternoon and am glad to answer questions about the University of South Carolina Beaufort funding request.

Currently, both the House and Senate versions of the budget include a \$1.2 M increase for USCB.

This increase simply brings USCB up to the level of the next lowest funded public institution in the stateâ€™on a per South Carolina resident served basis (Senator Davis exhibit attached). This â€œlevel playing fieldâ€ action is a pre-requisite for accountability based funding in South Carolina.

Thank you,  
Lynn
