Subject: Friendship, partnership, serving on same community boards and attending and participating in the same conference

Gov. Haley:

I have yet to received a response from you regarding SC Worker's Compensation Commission, Insurance Defense Companies. Medical Providers, SC Private Employers being cahoots in an organization of South Carolina Worker's Compensation Educational Association. The provided list and others not mentioned attends conferences together where they received specific training on how to present their case before SCWCC Commissioners to attain winning results against the claimant. The stated training are provided by SCWCC Commissioners as determined from SCWCEA Web Page. SCWCC Commissioners and Defense Attorneys can be seen in pictures at conferences therefore is no neutrality.

SCWCC being part of SCWCEA with companies defense attorneys and serving as SCWCEA Board of Directors together as well therefore it unable to be impartial and make a decisions base on facts because of established verifiable friendship. The violations of SCWCC and SCWCEA relationship has been verified and documented.

Please send a response.

Clarence Jenkins Jr
