Subject: First campaign bus of 2018 is now rolling!

Campaign season has begun with candidates across the nation readying themselves to hit the campaign trail. Philip Levine is starting strong with a bright, eye-catching bus wrap that's sure to draw some attention. Follow Levine's campaign progress at PhilipLevine2018.com. Read more details about the bus tour [here](#) and [here](#).

Pantene utilized one of our coaches in their latest Gold Series tour with a bus wrapped in REAL GOLD. We used a special material infused with real flakes of gold to make this stunning wrap literally shine. The bus provided a mobile base of operations, and was a great crowd-draw for experiential marketing events at locations across the US. You can read more about their fantastic tour [here](#) and [here](#). Congratulations on a brilliant campaign, Pantene!

It is no secret that Premiere has provided coaches for more campaigns than any other company in the US. Whether your campaign focus is Presidential, Senatorial, Congressional, or Statewide, or even if it's for a political advocacy group – we've got you covered. Campaigns and political consultants have been coming back to Premiere as their campaign transportation for years!

Additionally, we do multiple tours each year for U.S. Cabinet Secretaries as they visit their regional offices or handle special projects.

Campaign schedules are grueling. The coach actually becomes your home, your office, and command central. While our buses are comfortable and luxurious, the successful execution of campaign tour, in many cases, comes down to the driver! Our team of experienced drivers are accustomed to the unique needs of campaigns, and many of them have the appropriate secret services clearances.

We'll work with you to coordinate and manage the transportation on every leg of your campaign, ensuring that the journey adequately prepares you for the arrival – on swearing-in day!

Ken Fitzpatrick
President

Chris Montgomery
Marketing Director
