Message:

Water bills in Latta , South Carolina have be overwhelming to the citizens outside of the town limits. The bills are due by the 20 the of each month and your services are usually cut off around the 23rd or longer. I am writing because of the concern that I have with the way in which the water bills were handled for the month of July 2015. Citizens were given no warning that they had less than 24 hours after the 20th before their services would be terminated in the middle of an ongoing heat advisory. What concerned me the most was the fact that the town was not concerned with the safety and wellbeing of the people who were disabled or on fixed income and there were no spokespersons in the office to answer any questions about this ordeal. The reconnection fee has also been raised. The person who is in charge of this department did'nt even return to work on that afternon without notice. My concern that I'm hoping to have addressed is why was this allowed in the middle of an ongoing heat advisory and is there anything in the town of Latta more important than their money issues? We didn't cause and shouldn't have to pay for the lavish tastes of town leaders.
