"Today's groundbreaking, and the 1,300 jobs it means, will build on the successful partnership that our friends at Daimler and Mercedes-Benz have enjoyed with our state for years. We are proud to say that Mercedes Vans are now made in South Carolina!"

This quote will be included in a press release from Mercedes following their groundbreaking ceremony next week.

"To see Mercedes-Benz Vans' Charleston manufacturing plant begin to come to fruition with today's groundbreaking ceremony is a real reason to celebrate across South Carolina. This plant is another spectacular step forward in a partnership between our state and one of its most treasured companies, and we couldn't be more grateful for the commitment that this tremendous company continues to show our state and its people."
