BUDGET BALANCE ROLLFORWARD 091702.xls

Population-Windows by County 091702.xls

---

I have attached a revised copy of Gene's speaking points. I added a few footnotes and some additional information about wait times, equipment failures, office staffing, and population growth. I have also included two attachments that further define the population statistics, office staffing, and budget issues. Please let me know if I can provide any further explanation or information.
