Subject: Join Dr. Oz at Conference Board Employee Health Care Conference – March 8th!

Greetings Kevin,

We are pleased to announce that Sharecare's co-founder Dr. Mehmet Oz is presenting at The Conference Board Employee Health Care Conference in New York. If you or your client will be in attendance, we look forward to seeing you at the event next month.

During Sharecare's breakout session on Thursday, March 8, at 1:40 p.m., Dr. Oz will interview two of our client partners about how we are working together not only to improve the health and well-being of each employee, but also to reduce costs and to increase the personal capacity of their broader populations. I am hopeful you are able to attend, so you can hear first-hand how Sharecare is disrupting the status quo of workplace health, and delivering relevance and personalization to employees, no matter where they are in their health journey.

We also would like to invite you to visit the Sharecare booth during Conference Board to learn more about our ability to deliver real engagement and real change for your organization. Sharecare's digital health platform is uniquely positioned to deliver sustained engagement across various programs and services. Our highly sophisticated technology applies machine learning to our vast data repository, and presents individuals with personalized content to support their specific health and well-being needs, from episodic to the everyday. I am excited to share more with you about our integrated capabilities and results.

If you are not attending the Conference, please let us know if you would like to learn more of our capabilities.

We hope to see you there.

Regards,
Sharecare Enterprise Sales Team
