Subject: DOT Turnback Initiative

Hi Katherine,

As I mentioned on the House floor yesterday afternoon, Chairman White is interested in using some NR funds for a local road, turn-back initiative similar to what was proposed in the 12-13 Executive Budget. I've requested information from the DOT that they may have compiled during that FY, and they are working to get that to me. Before proceeding further, Chairman White wanted to reach out to the Governor, in hopes that she would be supportive.

I will be in the office all day tomorrow, and while Monday is a holiday, our Subcommittee will be hearing testimony from the DOT and SIB Tuesday morning, so I will likely be here preparing. If you and/or Christian have any time to discuss on either day, I can meet whenever it is convenient.

Thanks,
Ryan
