SHOT Show 2017

SHOT Show Giveaway

Zistos will be in **Booth 10774** with our *cache of tactical surveillance tools for you to test and evaluate*. Our personnel will be on hand to answer any questions and discuss possible applications. We hope to see you there.

Zistos will be giving away an AIR HOGS Helix Sentinel Drone with HD Camera, height lock, intelligent obstacle avoidance, and VR Goggles for a "cockpit" viewing of your flight.

Entering to win is as simple as stopping by our Booth (10774) and dropping your business card in our designated receptacle. The winner will be chosen after the show is complete and will be contacted directly as well as posted on our website.

For more information or a no-obligation demonstration, please visit www.Zistos.com or call (631) 434-1370.

What's New at Zistos

Zistos will be introducing 1 new system and 2 new cameras at SHOT Show 2017 in Booth 10774.

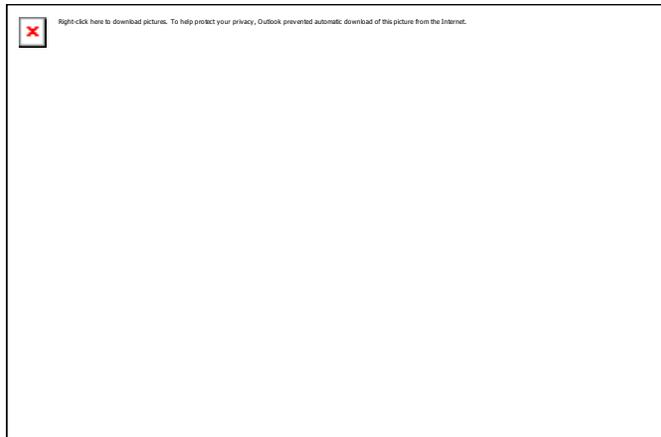

NEW

Tactical Dual Mode Thermal System - This system features our rugged and reliable, telescoping and articulating pole, accompanied by the THC-51D camera head and WalkAbout III 5.6" LCD Display to complete the kit. Our new tactical pole camera system provides the ultimate in tactical surveillance imaging technology and can help ensure that your team maintains a visual advantage in locating hidden subjects in dangerous surroundings.

[View Sheet Here](#)

NEW

THC-51D - The recently upgraded Dual Mode Thermal Camera combines the benefits of a remote thermal imaging camera and an even better low light, high resolution, B&W camera than our previous model (THC-50D). The housing of the THC-51D is more than 3" shorter and .2" slimmer (than previous) making it even easier to maneuver and handle. Despite these positive upgrades, the price of this camera has actually gone down significantly!

THC-51D (Left), THC-50D (Right)

NEW

WPC-3.5ZIR - A self-illuminating IR zoom camera with enhanced low-light capabilities and a 40 times optical zoom.

This camera is rugged, weather resistant and designed to see further away and with more detail.

WPC-3.5ZIR (Left), **WPC-2.5ZIR** (Right)

Upgraded

WPC-2.5ZIR - An infrared illuminated zoom camera with a 10 times optical zoom. We have recently upgraded this camera to have more IR light making it even better in low light scenarios and produces a clearer image.

For more information or a no-obligation demonstration, please visit www.Zistos.com or call (631) 434-1370.
