

The Children's Art Project funds a wide array of programs for children with cancer at The University of Texas MD Anderson Cancer Center. The education program, summer camps for patients and their siblings, the Child Life Program, and more are all part of our effort to make life better for the hundreds of children treated in our pediatric cancer program.

*Making life better for children with cancer since 1973!*

Product sales benefit the emotional, educational and recreational needs of patients.

Dear Hon. Mike Haley,

I thank you so much for the autographed picture. It arrived in my mailbox undamaged.

I'm planning to be a practicing Catholic again! Jeb Bush is a Catholic! Anyway, I do have Aspergers Syndrome (Autism spectrum disorder), its Level I, and I was diagnosed with it last Fall. This means I can't tolerate loud music or loud TV.

I wish we could meet in person, but I can't afford to travel now since I don't have a job.

This note card was from the MD Anderson Center in Houston, Texas; BUSH COUNTRY! I might send them a small donation.

Hope to hear from you soon!

Sincerely,

Betsy Lynne Parker
