Governor Haley:

I just want to tell you, in the past weeks, there are two things that have hurt my heart so much.

The first is when they lit up the White House with gay colors.

No one reads or goes by the Bible anymore.

The second was when my Governor and Representatives agreed to take down the Confederate flag. I voted for you 2 times, but never again. The blacks say that flag offended them and they wanted it down. There were blacks and whites who fought for that flag.

Well, let me tell you it offends me when I go shopping and have to look at males with their pants down to their knees and I have to see their underwear or naked behinds. What are you going to do about that? It offends me.

You should have put taking down the flag to the people, let them vote on what "they" wanted

What are they going to want next time? it's not only blacks, there are some whites that are just as bad.

They get free food, free housing, free phones, free doctor, free hospital. What else can they want?

I am a 72 year old white woman and still flying my confederate flag right at my front door, at least you can't tell me to take it down.

I'm tired of all this B__S__ and someday the whites are going to be sorry they stood by and did nothing.

I expect a reply.

Sincerely,

Nokomia Joyner
