Did You Know?

Spirit Communications dates back to 1985 when PalmettoNet, A Spirit Communications company, partnered with SCANA Communications of S.C. to build the first ever Internet Super Highway that connected Medical University of South Carolina, University of South Carolina, Winthrop University and Clemson University. This same network is now called the South Carolina LightRail (SCLR).

South Carolina LightRail is a collaborative system among the four schools designed to provide an advanced high-performance communications infrastructure that will enhance economic development, research, education and health care in South Carolina. It is a public-private partnership to provide a broadband, high-speed optical network that will extend throughout the state and link to regional and national networks, such as SURAGrid and TeraGrid, Southern Light Rail, National Lambda Rail, and Internet2.

In 2015, Spirit donated broadband services valued at \$1.4 million to Clemson University, which allowed the university advanced network connectivity.

BILLING INFORMATION

The Remittance section of the invoice should accompany the payment. The amount shown as Previous Balance should be paid upon receipt of the invoice. The Total Amount Due refers to the current month's charges including the previous balance if applicable and does not extend any previous billing due dates or payment arrangements. This amount needs to be received by the Due Date to avoid interruption of services. A late payment charge will be applied to the account when the previous month's invoice has not been paid in full by the Due Date. The late charge is applied to the amount carried forward and is included in the Total Amount Due.

PAPER INVOICE OPTION

A Paper Invoice Option fee applies to business and residential services if the customer chooses a paper invoice option. Customers can avoid this fee by choosing electronic billing.

PRORATION

Services are billed a month in advance. If any service is started or stopped within the billing cycle, the invoice will pro-rate the charge. The amount represents the partial month charge or credit from the date the service was started or stopped to the next billing cycle. The minimum service period is 30 days.

HOW TO REACH SPIRIT CUSTOMER SUPPORT

Any discrepancies or suspected errors in billing must be disputed in writing to Spirit's Customer Care Center within 45 days of the invoice date.
