Duane,

Could you (or a representative) please contact Mr. Hess by email. I am copying the Governor's staff so they can share his education ideas with her.

Hope you are having a great day!

Shane

Dear Senator Martin. We have communicated quite regularly since your commitment to public service through the political process and

I have always appreciated your efforts in that realm. As you might remember, my major concern at present is education of our youth.

When I see a radical like Obama succeed in two elections it is time to worry and worry big. One Marxist teacher can do horrific damage

to thousands of our youth during his or her career. When we realize 72% of college professors are Liberals/Communists it is no wonder

Pravda recently stated point blank that the U.S is sliding into Communism. It is going to take incredible public officials with impeccable credentials

and steadfast character to reverse the course we are now on. I suggest governors establish a commission to formulate a multi-faceted

approach to education and stop the present process that is now creating a Godless, Racist, Anti-Capitalistic (Marxist) nation. You may have

your own plan and that is fine. I do however, encourage you to give this top priority.

Senator, I moved to South Carolina from Texas a few years ago. While in Texas I worked intensively in the tourist industry while teaching at

West Texas State University. I helped create and eventually directed the Show "Texas" which for the entire time of my tenure was the most

successful outdoor summer Historical musical in the U.S. Texas, drew visitors from all over the world and brought millions of tourist dollars to

the state. One of my contributions Texas tourist projects was composing songs for the shows I was involved with. I also directed an entertainment

troupe that represented the governor's office on many occasions both in state and out. I have an interest in contacting whatever state agency

handles publicity, advertising and promotion for the state of Carolina. If you could put me in contact with the head of such an agency I would

deeply appreciate it.

Thank You and God Bless. Neil Hess.
