---

Based on the below alleged error, here is my proposed response unless you think it will stir things up more:

Senator Corbin,

Thank you for your comment. In choosing terms to describe the change in status, we used the legal terms in the bond reclassification paperwork. While we did not use your phrases below, we did convey your main point in the first sentence of our letter, stating that the hospital system would change from a government-run entity.

I appreciate you taking the time to provide feedback.

I think it is appropriate to correct them if they think we made an "error". Otherwise no.

Thanks Haley. I understand he does not like our characterization. The issue of public to private is their focus, but from a bond standpoint the holder is going from government to a 501 (c)(3). We don't have other paperwork on corporate changes. We did state the following which addresses this: "As you know, the Greenville Hospital System (GHS) Board of Trustees voted to **change from a government-run health system** to a **non-profit health system** effective October 1, 2016."

A non-profit is a public entity. Swati do you want me to draft responses to these types of emails from the delegation?

Richele

My apologies. Looping everyone in!

Please see the feedback below from Sen. Corbin.

There is one error in this letter. GHS is not going to change to a non profit they have been and will continue to be non profit. The change is that they are going from a public ( citizen owned ) entity to a private entity. 6 billion in assets to 1 dollar a year payment back to the citizens.
