Subject: Fwd: Palm Beach Audit Document / IRS cases

Dean I want to revisit this with you , Lev and Robert . Attached is the Palm beach forensic audit as well as many more cases against Chambers and CVBs in the USA can be sent . John please send those to everyone one including the law firm and findings in New Orleans , Philidelphia etc. I can assure each of you this is not just going away and as we speak we are building a huge compelling case in SC with forensic audits , turning over info on corruption to SC dept of justice /FBI , filing FOIA lawsuits , unfair trade practice lawsuits and proving 100% violations to IRS 501-c6 tax codes , not paying UBIT , massive abuse , with embezzlement , kick backs, favors to buddy boards , excessive salaries / expenses , tax dollars for goods and services out of our country , unfair rigged bidding , extreme over charging for goods and services I call robbery and attempted robbery . SC will be our laboratory rat test and this will be used to go nationwide . We will involve our local politicians , sc IRS agents not doing their job to audit this abuse , the Governor, local town officials and more . Many are in this email and some are BCed as to keep their identity hidden to allow them to complete their work and investigations .

Dean what intrigues me is how you collected 120 million Whistle blower fee for your client Michael Berkenfeld largest IRS fee paid in USA history and nobody else can . My case is solid and will become one of the largest IRS WB cases in USA history yet to date the IRS and its agents in SC and the USA is doing nothing and allowing this abuse to our country ,tax system and unfair trade along with damages to all tax paying local tax paying media to continue . When you add in the tax violations , UBIT and damage claims we are in the billions and more than your past 120m WB victory . IRS needs to play by their rules not my rules . If they don't enforce the WB program and tax violations why in the hell do we even have a IRS whistle blower program ??????

Dean / Everyone I am not the type individual that gives up or takes no for an answer when I know I am right and I have proven 100% massive abuse causing destruction to the USA in the billions of dollars . Our country just can not keep taking these type beatings forever and survive . I don't just want to collect a WB fee that we deserve , but I want to stop the abuse and put as many bad people in prison as I can in white colors hurting many good people trying to make an honest living , support their families and most importantly paying the taxes that pay for our roads , schools and military . Understand I am a 66 yr old man who has nothing to loose and the perfect person for this job. I do not fear retaliation

or attack , losing my job , I can't be hired or fired . Thanks stay tuned this show in SC has just begun.
