

To Gov. Pickens Hailley

If you notice the day is the 5th. I wrote this letter after the first letter. I had to pray on this. People make mistakes in life, but we have to pay for them. I'm hoping that the staff here realized they made a mistake. I have spoken to Major West about my situation. I spoke to Doc. Warclen McFadden. I spoke to Warden Eagleton, and I have spoke to Mr. Hooker in finance. I have spoke to Mr. Smith in medical. I have gotten no help from any of those people, and their bosses is Mr. McCall, and I have written Mr. McCall and I have written Brian Sterling. I've gotten no response. You are their boss Gov. and I will continue to write because it is my right. I will forward a copy of this to my state representative, and to the median WIS for help. I've done nothing wrong. If I would have done some wrong I would have been charged, so I'm asking your office to look into this matter. Grievance does nothing for the inmates here. I'm not an inmate that doesn't have a family that loves me. All I need to do is tell my family what is going on and they will be all over it. I will fight for my right, because it is my right. I'm writing your office for help on an incident that happened on 6-12-15. Where, I was sitting down and was hit from behind, by another inmate. I was left with a fracture cheek bone and rupture eye socket.

I was talking to medical and transferred to Cheram Hospital, because of the injury. I was also transferred to McCloud Hospital. McCloud doctor's stated that "I needed to see a bone specialist, and was transferred to Stokes Eye doctor. Do to the swelling on the eye, Stokes doctor recommend that I come back that Monday."

The prison waiting four days to transferred me to S.C.D.C. doctor. Immediately, I know my eye wasn't in the interest of the doctor. To this day, I still don't know if the inmate who stick me, doesn't change are not. To this day, I've still not seen a Bone specialist for my face.

After several more visited to S.C.D.C. eye doctor, confirmed that my eye are still having problems. He stated, "I'll need wanted glasses for light. To this day, S.C.D.C. still have not provided me these glasses. I've spoke to the Warden, Mayor, and I've wrote the Director of S.C.D.C. about this matter. S.C.D.C.'s is more like trying to minimize my injured and shift the blame. By telling me my family had to

provided these glasses. I'm house by S.C.D.C., it's not my family responsibility.

"If, it was your love one, wouldn't you'd love for them to've proper medical treatment?" I committed a crime, I was punished in the court of Law. I shouldn't be punished by the lack of medical care.
