Subject: Fort Mill Scholl District

Dear Governor,

My name is Robert Vinesett, the parent of Hailey Rebecca Vinesett. She has attended FMES since she was in kinder garden. Since the 3rd grade I have received any of Hailey's starting school info. Like her school teacher will be, materials shell need and what class room she will be in, etc. I have called the fort Mill School District and notified them since she was in the 3rd grade. I spoke directly with Dr. Smolzy and he assured me this would not happen. Now she is in 5th grade and I have not received anything for Hailey's school. I have parent portal but that doesn't cover any of the begging of school year materials or things that I might need during the year. I know the school has a website to check out events that happen during the school year but it doesn't take care of things that should be sent to my home about Hailey. I contacted Fort Mill School District like I've been doing every year since she was in 3rd grade and I get it will be taken care of but by then its to late, shes already started school. I was told to contact the mayor of Fort Mill on this matter and here is the email I sent plus the mayors response: RE: Fort-Mill school has messed up

Good morning Mr. Vinesett –

Thank you for your follow-up note. I am sorry that I was unable to speak to you on the date of your first call, but as you noted I did return the call as soon as possible and left you a message.

Unfortunately I cannot offer you any assistance in your stated issue. The Fort Mill School District is not under the jurisdictional rule of the municipality – they are a district managed by their Board and the State. The Town of Fort Mill has no management authority in the School District.

I wish you the very best in obtaining resolution through the District.

Kind regards,

Guyonn Savage

Mayor

Town of Fort Mill

Mayor,

My name is Robert Vinesett the parent of Hailey Vinesett which attends FMES since kindergarten. I'm here to report to u something that has been going on since she was in the second. I have not received my daughters meet the parent teacher day info, pre registration and everything that goes along with her getting ready for her new school. This is the last year she attends elementary school and I find this very unexcitable and I have brought this to Fort Mill school district for several years and they know the situation. I have spoken with the Dr. Smozly the asst. director year about this every yr. So i called this office and I was referred to u.. I'm will not except this and I need u to contact me asap and I know u called the same day I called in and I thank u for that. I have bad health so there's limited times I can speak. I didn't even get Hailey's report card last year, her final 1. I have parent portal but that doesn't cover the beginning school info I need to what's going on in my daughters life. U can email me back here or call me 7045883330. I find this very unexcitable and As a parent this really hurts me because I want get these years back of my daughters life. I usually go eat and participate in Hailey's school life but my current health situation has me filing for disability so I cant attend everything but I at least try my best on a good health day to do so. Please take the time to investigate this matter because this is not ok. I also have a email account that will prove that I didn't receive anything there also.

Thank You
Robert Vinesett
