All,

I wanted to make sure you saw this release from Sen. Jim DeMint's office. Let me know if I can be of further assistance.

## **DeMint Applauds Gov. Haley's Decision on Obamacare Exchange**

**Washington, D.C.** – Today, Senator Jim DeMint (R-S.C.) made the following statement about the decision by S.C. Governor Nikki Haley to not set up a state-based health care exchange.

“Governor Haley should be applauded for standing up for South Carolina patients, doctors, and taxpayers by opposing the creation of an Obamacare exchange in our state,” said Senator DeMint. “Her decision will help shield South Carolina from job destroying tax increases on state businesses, save taxpayers millions of dollars in set up costs, and allow our state to fight for health care solutions that don't limit choices of families and doctors. Obamacare is already failing, forcing businesses across the country to cut back wages and hours while increasing health care costs and things will only get worse. We must continue to fight for full repeal of this government takeover and for commonsense solutions that expand health care freedom.”
