Folks-

Attached is a draft proposal for a conference report on H. 3066. It DOES NOT include the language discussed at the end of the last meeting.

I would like to suggest that we each take some time, digest what is in this (I've not read it myself as of yet, that's how fresh it is) and get together first thing Monday morning to address any "small" concerns that might arise in this draft and try to refine them prior to the next meeting Monday afternoon.
