Senator Peeler told LG to send it for him to use tonight at Cherokee convention. Sorry, I should have mentioned. I was in a hurry. Kevin also texted him again about 30 minutes ago

Sent using OWA for iPhone

- county parties across South Carolina, are what some might call the grassroots, but it's what I call the bedrock of Conservatism
- I fully appreciate what you are doing here today, because I began my life in politics as Conservative activist, just like you
- Anderson Co party chair - 1997; SC Senatror, 2004-2017; current Lt. Gov
- While I served in the Senate, I made one simple commitment: promoting your Liberty and protecting your wallet. I didn't always win, but I never walked away from a fight on your behalf.
- Conservatism, for me, reflects the belief that government is a dangerous tool to be used sparingly and only at last resort; a tool which cannot replace God, family, and common sense; and a tool that must be used as close to the local level as possible in order to keep it accountable to the taxpayers.
- Conservatism also reflects the belief that all political issues--including the fiscal issues--are, at heart, moral issues.
- Conservatism has been under assault for several decades, and those of us who strive to defend it often find ourselves in the minority. We find ourselves constantly under fire.
- Every time that I speak across South Carolina, I will make clear my opposition to anything other than true reform that puts the DOT in the cabinet of the governor. AND hands off your wallet!
- Do not let the media, the politicians (including some so-called Republicans), the establishment, or the elite in the colleges, or anyone else shame you for standing up for America and for your liberty.

God gave it to you, don't let government take it away.

Lieutenant Governor's Office on Aging

Our goal is to provide services to seniors and their caregivers to allow seniors to remain in their own homes for as long as possible.

We also serve as a "voice" for our most vulnerable seniors.

We contract with local providers to provide both "home delivered" meals and group meals.
(The Lt Gov delivered meals)

We also provide respite care for family members caring for a senior family member.

We are currently redesigning our website (Duke Foundation is paying for this). It will be more user friendly and will direct user to services in their area without going thru numerous unnecessary steps. Will also provide links to other resources.

We are also changing the way we assess clients. We will no longer look for a single need but look at the "total person" and "total needs". We will then connect them with services needed. Even services not provided by LGOA.
