

Nor. 28, 2015

Madam Governor,

I have lived in Laurens County S.C. for 35 years and travel to Greenville several times a week via I 385, I also travel to Columbia about once a month via I 26 and to Charlotte about once every 2 months via I 77, To Eastern North Carolina approx. once a year via I 20/I 95 and to Charleston once a month via I 26.

In all of these years of travel I occasionally see a S.C. Highway Patrolman stop an automobile, I assume for speeding, however I have never seen the highway patrol stop a 18 wheeler, and believe me they speed 10 to 30 MPH over any speed limit! Having observed this phenomenon, I have several questions, No S.C. Bureaucrat will give me an answer, I hope you might!

① Does the trucking industry in S.C. have the Highway Patrol in its hip pocket?

② If so, how do I join the Club?

③ Why are so many Highway Patrolmen stationed in small communities handing out Mickey Mouse Citations ie "your Left Tail light is out", "you did not give a proper Right Turn Signal", "you were Not wearing your Seat Belt in the Shopping Center Parking Lot".

③ Why are they not out on the Zoter State  
Highways Stopping Speeders driving 80-100  
M.P.H.?

No wonder the death Count on S.C. Highways  
is over 800 so far this Year!

Should you possibly need help, and someone  
does, in solving this major highway problem,  
I would be glad to assist or suggest remedies.  
Thank you in advance for your Timely Reply.

It seems to me that the Powers That  
Be in the Highway Patrol are not earning  
their keep!!!

It is no Surprise that S.C. Drivers Rank  
#1 as the worst drivers in the U.S.A.
