

Dear the Honorable Nikki Haley,

10-2-15

I am writing on behalf of the recent Syrian refugee crisis.

My heart goes out to the terrorization of these people. The inhumane conditions in which they live and are trying to survive, however they most unfortunately are a pawn in the hands of an incredibly strategic ISIS proponents. These people have developed a masterly crafted plan to invade our country- and it prays on the compassion of our country, and specifically the compassionate heart of our Governor of South Carolina.

Let me be clear, in my heart of hearts, this is a ploy of the enemies of our great nation. Let us consider what is already happening in our own country in the state of Louisiana. Sympathetic, well- meaning leaders, like yourself, let those refugees come into their state and instead of engrafting into "Our way of life" they are rebelling and commanding that the Sharia laws be upheld in our land. (WHAT ON EARTH IS GOING ON?) And if we are in question as to what is happening in other countries look at what is happening in England! Not only are they there living they are rioting in the streets, hired their own police force, and commanding that the Queen convert Buckingham Place into a Mosque and she became Muslim. Are these innocent refugees? Coincidentally, all coming into countries of freedom and liberty but... with their own agendas!!!- Not coincidence AT ALL!

Stop this atrocity! Even in York County, SC we have a Muslim camp- All authorities have assured us that they are peaceful- yet as a citizen of York Co. my question is then... Why is there heavy artillery in their compound? Why do they daily practice hand to hand combat? Why are there armed guards at their compound? They have a place no one can enter or leave unless of course you are a Muslim. Mark my words- they are Not innocent, peaceful people. What strategy!!! Right here in our own backyards!

On a state level- are you ready to call in the State National Guard when these insurgents rise up? In the words of my brother- a Major in the United States Army-

"They love to connect their treason with our national identity- they seem like innocent Muslim refugees, but they are Balkanizing this nation, and daring anyone to oppose immigration, attacking them as racist."

They detest our constitution, reject our God, and abhor our freedoms. What will happen in a few years when they want to change our laws and then say "the people have spoken, we want change." I use to think the Islam religion was just for those in the mid-east. That is no longer true. Where I can personally appreciate one's freedom to worship as they please, I in no way endorse a religion infiltrating our society and then infringing their religious ways on us and we succumb to them like dead dogs. Even in a recent conversation with local authorities about reaching out to churches in our county to help the foster care crisis in our on county- an official commented to me- to keep church and state separate! What have we come to in our own state- we embrace these Muslims **who will infringe their god on us and their ways of life**, yet even our own weak willed people won't allow the God of Creation to even help the orphans right here where we live!!!!

What will happen in a few years when the ISIS plants rise up and demand we adapt to them? We are no longer just a simple state that is called upon to extend mercy. We are living in a day where we **MUST** exercise Wisdom and Prudence.

While I appreciate sympathy and extend personal compassion when called upon- this is not the same as it was 60 years ago.

Who will absorb the cost? Where will they live? Where will they work? Who will teach them our language? Who will be the liaisons in every sect of our way of life- buying and selling anything? Will they live off the government or will they by random chance contribute to society? Who will finance all of the new demands?

The people of South Carolina will!!!! Say NO- not in our state.

There is no way of tracking to screen who is a part of ISIS- It is a chance of Russian Roulette at best! I plead with you Governor Haley to keep these Syrians out of South Carolina and out of the U.S.

Sincerely, *Kim Trainer*

Kim Trainer-York County, South Carolina
