**South Carolina State Parks**

at 20:20:58 on 8/21/2012 UTC · 🌐

This Carpenter Frog is native to the Cypress-Tupelo swamp in a Carolina Bay. They have a unique call that sounds like a carpenter hammering a nail into a plank of wood. During Woods Bay's spring season, the whole park sounds like it's under construction!

**Bryn Harmer** I Love listening to the frogs at woods bay!!
