Subject: Termination of corrupt employees and filing of criminal charges

Gov. Haley:

I just received the SC Worker's Compensation Full Commission Decision to Fully Affirmation the Single Commissioner's Decision and Order. I requested that Commissioner Michael Campbell II and Director Gary Cannon be terminated from misconduct in office.

I am now requesting that Commissioner Beck, Commissioner Taylor and Commissioner Wilkerson be terminated for misconduct in office and that criminal charges be filed against all because of willfully affirming an illegal document of Attorney Rusty Goudelock and Commissioner Michael Campbell II.

I am also requesting a complaint be filed with SC Attorney General Office against Attorney Rusty Goudelock for false statements and misrepresentation of facts. I have made this request of Mr. Cannon several months and he failed to comply with the laws that govern this state.

For all who has the assurance this case will not be appeal before the appellate court and believes my ability to not proceed on that level has misguided thoughts. I have the ability, the resources, time and quite familiar with process even though not physical well.

Gov. Haley, you may be focusing on your political future without any consideration of your past unlawful deeds. Gov. Haley do not let hidden evil under a rock becomes a stumbling block.

Please send a response.

Clarence Jenkins Jr
