WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Smart technology really is all about people: It's easy to get bogged down in the wizardry behind smart technologies, but a new Qualcomm campaign is making people the stars. It's a good lesson for cities that are trying to get citizens excited about new initiatives. Click for details, and to watch a fun video. MORE >>

Standout cities: Smart cities are safe, they're energy efficient and they're innovative – and new rankings highlight cities ahead of the pack in each of those categories. Find out who the leaders are. MORE >>

Digital interns key to Joburg's future: Johannesburg, South Africa has ambitious smart city plans – and that includes ensuring it has the trained tech professionals smart cities require. Click to learn how Joburg is partnering with Cisco and Microsoft on a digital intern program -- an approach other cities may want to consider. MORE >>

June 3 webinar: The Art of Smart City Solutions
Learn how the Internet of Things can make a positive impact on the future of cities in a webinar on Wednesday, June 3, at 10 a.m. PDT. You'll hear smart cities specialists from Verizon, IDC and Alcatel-Lucent. Register now >>

TOOLS & RESOURCES

Police find more reasons to get social: When big city media ignored the news from a suburban police department, it turned to social media to get timely information to citizens. Learn how Johns Creek Police are using SunGard Public Sector's platform to better connect with the community on everything from storm alerts to lost pets. MORE >>

Crystal ball for utilities: If you're a utility, generating too much power is nearly as bad as not enough. The excess can lead to millions of dollars in waste each year. Learn how TROVE is helping Avista, Southern California Edison and other utilities cut waste by learning to better predict the future. MORE >>

Don't miss the action at Smart Cities Week Sept. 14-16
The Council is hosting a major smart cities event in Washington, D.C. -- and you're invited! You'll hear mayors and other public officials from around the world share success stories and the world's foremost smart cities experts will showcase solutions to urban challenges. Get details >>
