Christian is flexible in the afternoon, he asked me to check to see what was preferable?

Leigh

Leigh, thank you so much. Yes, that would be fantastic! As far as the Governor, we absolutely and completely understand. Yes, meeting with Christian would be great. Would Christian have any availability the afternoon of March 21? The SCBIO folks would already be in town that day.

Thanks so much!

John

Hi John,

Thank you so much for the opportunity. The Governor's schedule is just jam packed over the next few months, but we'd appreciate an opportunity to schedule a time for SCBIO to come in to meet and keep our administration informed. Would Mr. Bollick and Mr. Roper be amendable to meeting with Christian Soura, our Deputy Chief of Staff who handles all budget and policy matters?

Please let me know at your convenience, and thank you again for your consideration – I'm sorry we're not able to make it work in regards to her schedule.

Thank you,  
Leigh

Leigh, as always, thanks so much for your follow-through to let us know. We could imagine that the Governor is incredibly stretched and would attend the event if she were able to do so. In fact, I think I saw on Fox News or something like that that she may be at a Governor's conference during the time the SCBIO folks are in town.

What I hope to do is to, at another time, get the SCBIO chairman (Michael Bollick - president of Lab21 in Greenville) and the SCBIO president (Wayne Roper, who is former chief of staff for Congressman Bob Inglis) in front of the Governor for 15 minutes in her office to update her on where we are on the life science industry

in our efforts to continue creating jobs in SC.

Can you help with that?

Again, many thanks!

John

Hi John,

Thank you for your kind invitation for the Governor to speak at the SC Life Sciences Luncheon on March 21<sup>st</sup>. The Governor appreciates your consideration, however, due to a prior commitment her schedule will not permit her to participate this year due to travel conflicts. We know you have a great keynote speaker with Lou Kennedy of Nephron – and we're very excited they may call South Carolina home. Best wishes on a successful event.

Please let me know if you have any questions, or if I may be of further assistance.

Sincerely,  
Leigh LeMoine

Leigh, wondering if we've made any progress to have the Governor speak to our group at 1:15pm at the Capital City Club. We are planning on having the state's and some of the nation's

leading Life Science company officials at the luncheon....the very people who are responsible for creating jobs in SC, including the Nephron Company President. Hope your schedule will allow. Thanks for all of your help with this!

John

Dear Life Science Executive:

At 12:30 p.m. March 21, 2012, SCBIO is hosting the first South Carolina Life Sciences Industry Day lunch for key lawmakers and top state government officials at the Capital City Club in Columbia.

This is your opportunity to show policymakers the face of the life sciences industry - anyone who works in an FDA-regulated environment. We will unveil our economic impact study, and talk about building a "ready-to-grow" life science workforce. Please help us reach the entire industry in medical devices, medical equipment, medicines, testing, diagnostics, ag-bio and biofuels.

We will include your company name in all invitations and publicity as we make the case for the importance of the life sciences industry to the state economy.

See our [Web site and register to attend online](#). Details below:

Shawn Regan, CEO, Rythmlink, Columbia, Chairman
