

Statement\* of Fred R. Sheheen, Chairman  
South Carolina Commission on Higher Education  
January 9, 1986

Today we bid a fond farewell to Jerry Fedder, a member who leaves us to assume larger responsibilities in state government--further lending his considerable talents to the cause of good and sound government in South Carolina.

He will bring to the Industrial Commission the same qualities of dedication, intelligence, diligence and good humor that he has brought to the Commission on Higher Education. In all of his work here, we have benefitted from his honest and candid examination of the issues--and we have enjoyed his ability to lighten our deliberations with his merry wit.

We thank you, Jerry, and we wish you Godspeed in your new assignment.

We jealously surrender you to the Industrial Commission.
