Thanks so much for your kind words and for making sure to be informed. I hope more South Carolinians will take public policy seriously enough to find out the facts before forming opinions.

Kevin

Subject: Jacob's Law

Kevin, first of all congratulations on your "promotion to Lt Gov". Thank you for taking the time to write the column, printed in the Anderson-Independent this morning, about Jacob's Law and explain the thinking and rationale for the law...how much more informed we all could be if all legislators took the time to provide such explanations and information.
