MVR (Driver Inquiries) on tape

Do not provide SSN, Height, Weight or Race. The output record layout has designated fields for Height, Weight and Race but our software is set to move zeros to these fields.

The attached file contains the header record from 3 MVRs. I have modified the DL No., Name, Address and Policy Comments to protect the identity of these people.

Darl Neiswonger

Would one of you please share this with Gene. I was not certain of his email name and felt it better not to blindly send it to the wrong person.
