Subject: Very Troubling Social Media Use/Posting

All,

Wanted to share with you how this person who either works at or represents a tax payer funded institution of higher learning in Charleston is messaging to this countries children. The below link will illustrate what shocking, scary and potentially criminal messaging Dr. Rachel McKinnon is publicly posting. I would hope nobody would condone this, especially from someone representing a tax payer funded institution?

Below is a screenshot from the link with a message to a child suggesting that their parents don't love them (and to skype her)!
