Dear Governor Haley

I am a school teacher working with kids at risk in a special literacy program in the Bronx, New York.

As part of my program, I am constantly challenged to find new ways to ways to challenge my students. To do so I have been giving my students autographed card from various celebrities and sports personalities from my personal collection.

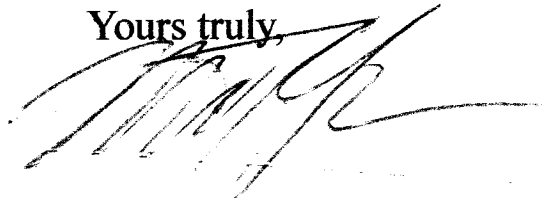

Sadly, I am beginning to run extremely low.

Would you please be so kind enough to take time from your extremely busy scheduled to autograph these card **(on the front) for me to give to a special and deserving student.**

I have enclosed a stamped addressed envelope for easreturn.

Thank you so very much.

Yours truly,
