Haven't touched the cover letter still. Stuff in green is either citations that I know need work or category heading placeholders (real headings would be called something else probably). I haven't touched anything after page 12, except to cut stuff and bring it forward. On page 7...no... "Unorganized Stuff" is not an actual idea for a category. Heh heh heh.

Gonna spend a few minutes trying to get a "final" draft of CRF done. Then will start gearing up to come in. Thanks for another day/night's worth of suffering on this...

My notes on 1a -
All projects are in the document, just a few need to be moved up to that section -
GSSM, classified positions
Department of ed - geography, and writing
DHEC - sickle cell and CON

Sea grant needs to be changed from the one line to the entire section in the citation.

There are 2 IB projects in the IA section that need to be moved.

On to IB

Subject: RE: Update

OK, I'm back...looking at it now...let me know if v4 is still it, or if there's something newer.

Not sure what your plans are for later tonight, but things that would be helpful...

1. Take a look at the CRF veto message...please double-check my math everywhere (I have that XLS I mentioned earlier on the shared drive, for that HEPI stuff). Also, the USC "only Part IA increase" stuff...that's true, right? And are all the references/citations in the CRF veto correct? I think so, but would like independent verification. And please also match against the V12 chart to make sure that list of 7 items is the right list. Actually, if you have a second...would you mind dropping the CRF veto into letterhead and emailing it back to me? I have one word I want to change, too. :) And a style question, since you looked at the older letters and I haven't...is it to Harrell and the Members of the General Assembly, or to Harrell and the Members of the House of Representatives? It's drawn up for the former now ('cause it's a J. Res.?)...just wanted to confirm what we're supposed to do.

2. Pick out some good blue-line examples...lines that anyone would understand should be lower, but which everyone would also understand you can't veto, even at the levels they were raised to in the conference report. Hang onto 'em...don't send them to me tonight, but we oughta discuss tomorrow with the press/comms types.

I've got another thing I could use your help with tonight, but wanna hear back about whether or not v4's the latest first. Thanks.
