Subject: Let America Know: Abortion Harms Women!

Dear Katherine,

Any abortionist will tell you, abortions are *good* for women. Women *need* abortions to have societal equality with men so that they remain free of the burden of unwanted pregnancy.

You and I know abortion isn't in *anyone's best interests* —not unborn children, not our nation, and certainly not the women who are physically and emotionally traumatized, and all too often, even killed.

Americans United for Life has a [comprehensive plan for 2014](#) to let America know about abortion's harm to women, a crucial step to pass more pro-life legislation and undermine the flawed reasoning upon which *Roe v. Wade* is based. But we need your help to get off to a strong start!

By midnight on December 31, we need to overcome a \$187,462 budget shortfall. [Will you help meet this important goal with a gift right now?](#)

For LIFE,

Charmaine Yoest, Ph.D.
President & CEO
