That's one BIG BEETLE -- so big, it's called a Hercules beetle -- one of the largest in North America. Saturday, July 23 at 9pm at Lee State Park, we'll be setting out UV lights and bait stations to attract moths and beetles like this! Come out and see these awesome creatures up close. For more info: <http://southcarolinaparks.com/products/10004426>  
Or contact Lee State Park at 803-428-5307 or lee@scprt.com.
