**Subject:** ANDERSON DVM WISH LIST

---

Hello Field Administration Team

Our facility needs are as follow:

- Please redo landscaping such as flowers, shrubs and mulch
- Flooring, replace all tile in our office and replace worn out carpet with tile in the managers office
- Break area—a sink and cabinet is needed for our employees
- Public restroom needs a lot of work with the sink, toilet and floors and the smell, customers complaining
- Additional workstations
- Test stations need to be separate from the lobby
- Updated counters tops with better and lockable units to secure our control items

I hope some of these wishes can come true.

Thanks
